

## Welcome to the Idell Preserve

The Idell Preserve, a 57-acre property owned by Hunterdon Land Trust, is located within the Delaware River Watershed. The property includes old growth trees around its perimeter, pine forests that are home to Great horned owls, young deciduous woods and vernal pools.

You'll likely see plenty of woodpeckers as you hike the .8-mile trail, which is dotted with Staghorn Sumac, Pin Oaks, Spicebush, Jack-in-the-Pulpit and Mayapple. You may also spot some native blueberry shrubs.

Idell's preservation is important for groundwater infiltration, carbon sequestration and protection of habitat for bats and insects.
